

## Material Data Sheet

Product description      Silver Heavy Duty Labels  
2309

<b>Face material</b>	
Material description	Matt silver polyester film with a toner receptive top coating
Hardware compatibility	Suitable for all standard monochrom laser printer
Thickness	50 µm +/- 10%
Weight	78 g/m <sup>2</sup>
<b>Adhesive</b>	
Type of adhesive	Acrylic based Hot Melt
Adhesion	Permanent
Coating weight	21 g/m <sup>2</sup>
<b>Liner</b>	
Type of backing paper	White, chlorine free bleached paper, one sided siliconized
Thickness	90 µm +/- 10%
Grammage	97 g/m <sup>2</sup>
<b>Laminate</b>	
Thickness	160 µm
Grammage	196 g/m <sup>2</sup>
Service temperature	Approx.. -40°C up to +150°C
Minimum application temperature	+10 °C
Optimal storage conditions	20 °C and 50 % r.h.
Important product properties	UV-resistant Resistant against water, dirt and oil UL certificated Meets the requirements regarding the EU regulation 2002/95/EG (RoHS)

Note: All information are considered as typical values
