

Kiilto Pro Keyboard wipe

Disinfection Wipe

Kiilto Pro Keyboard Wipe is a soft disinfecting wipe for keyboards, computer mice, analogue phones, remote controls, calculators and other similar devices

Application

For disinfecting keyboards, computer mice, analogue phones, remote controls, calculators and other similar devices.

The 80 wipe package is ideal for all kinds of public and institutional use.

Product properties

Disinfecting frequently touched surfaces, such as keyboards or remote controls can be essential in a lot of different spaces, varying from offices to hospital environments, or even on-the-go. Kiilto Pro Keyboard Wipe reduces the risk of spreading infections, while being quick and simple to use.

The wipes are made of viscous, which is a biodegradable material, and moistened with ethanol disinfectant. Kiilto Pro Keyboard Wipe efficiently destroys harmful viruses and germs that spread through contact.

Each wipe is individually wrapped, making them easy to use in different circumstances. This allows for portability as well. The sealed packaging protects the wipes and preserves the integrity of the liquid content, by preventing evaporation or leakage, maintaining the effectiveness of the wipes until the moment of use.

The microbicidal effectiveness of the product has been verified with EN- standard tests:
 EN 16615 (bacteria & yeast) 2 min,
 EN 13624 (yeasts) 30 sec,
 EN 14476 (virus) 30 sec,
 EN 14348 (mycobacteria) 1 min.

Instructions for use

Rub the wipe over the surface so it is moistened for at least 1 minute. If evaporation occurs faster the procedure must be repeated.

The individual wipes are intended for single use.

Storage

Store at a normal room temperature. Effective shelf life is 3 years from manufacturing in unopened packaging when stored properly.

Appearance and scent

Non-perfumed

Country of manufacture

HUNGARY

User and environmental safety

The display packaging can be recycled after use.

The wipe is made of 100 % biodegradable material and can be disposed of as organic waste.

Unused product is hazardous waste.

Use biocides safely. Always read the label and product information before use.
