

The wired KC 6000C FOR MAC is the perfect companion for frequent typists on a MAC. The keyboard with a 5.9 ft long cable and Mac layout scores with 13 special functions arranged on the F-keys such as Mission Control, Spotlight Search, screen brightness, Lock PC and media control. They are executed directly. To access the default functions on the F-keys, hold down the FN key and select the appropriate key. If you want to run the standard functions permanently, press the Control and FN keys at the same time. The FN LED in the F14 key lights up when the FN key is locked.

Even users with high demands will get long-term enjoyment from the KC 6000C FOR MAC. The in-house CHERRY SX scissor technology ensures highly comfortable and quiet typing. Users who like to write on laptop keyboards will feel particularly at home with the chiclet design keys right away. With the help of the computer keyboard's numeric keypad, frequent input of numbers becomes effortless. The compact slim keyboard also has an in-built metal plate, making it stable and non-slip on your desk. Thanks to the rubber feet (included), the keyboard can be easily adjusted to the individual user's preferred angle.

The CHERRY KC 6000C FOR MAC is a high-quality alternative to other Mac keyboards. The flat Mac keyboard is a gain for the desk on every level. The flat cable keyboard can be used on all end devices with a USB-C connection and operating system MAC OS X 10.13 and higher. With plastic-free packaging, the keyboard scores highly environmentally too.

FUNCTION AND PERFORMANCE

- Keyboard in chiclet design with Mac layout
- 1.8 m cable with USB-C connection
- Quick access to 13 frequently used Mac functions
- Compact and slim housing
- Precise scissor mechanism for an ideal operating feeling
- High weight due to integrated metal plate

- Exceptional design with shimmering blue key frame
- Durable key labels
- Numeric keypad for convenient number input
- Rubber feet for height adjustment for ergonomic writing
