

Automatic letter opener **OL 420/440**

The quick starter Ideal for small and medium mail volumes

Take-off from the stack

Thanks to the self-aligning feeder, the daily mail can be inserted without pre-sorting.

The fast way to open your incoming mail in time

Opening letters manually means wasting time of the operator and getting the job of inhouse mail distribution done with a real delay of time.

The solution is the high performance and fast letter opener HEFTER Systemform OL 420 or OL 440.

A profitable solution for already 80 envelopes to be opened per day. The OL 420 opens letters with the cutting technology. Advantages compared to the slitting technology: Reliable opening, also of different envelope thickness, from the very left to the very right edge. The variable cutting width adjustment allows exact opening, also for well filled envelopes.

The model OL 440 is equipped with a third feeding belt and therefore, suitable for bigger envelopes like C4 or B4.

Unpack, plug and the opening process can start!

- Big feeding tray with automatic, self adjusting envelope feed up to B4 envelope size
- Cutting technology: Precise opening from the very left to the very right edge
- Reliable opening of big formats and thick letters (up to 10 mm)
- Quick and infinitely variable adaptation of the cutting width (from 1 to 4 mm)
- Easy, trouble free operation
- Innovative design
- Silent operation

Automatic letter opener OL 420 / 440

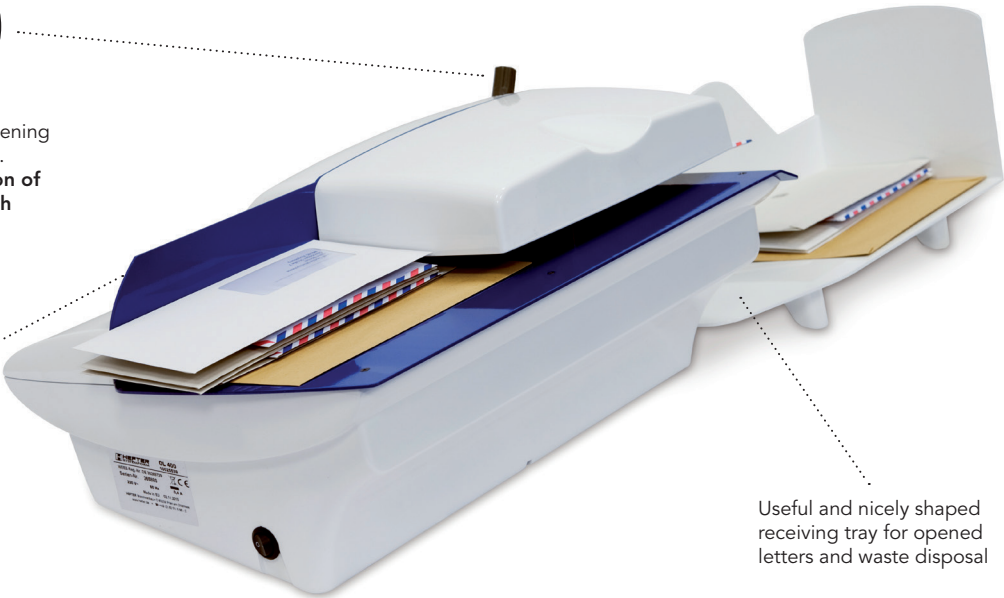

Compact in dimensions Top performance

Strong self sharpening
HSS steel blades.
Variable adaption of
the cutting width

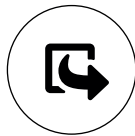

Automatic, self
adjusting **feeding**
of the envelopes.
