DESIGN COFFEE GRINDER

BaristaChef Inox Pro

- + Compact coffee grinder with touch display, stainless steel housing and "anti-fingerprint" surface
- + **Innovative zero retention technology** - always freshly ground coffee enjoyment, as there are no old ground coffee residues
- + **With modular portafilter holders for 51 and 58 mm Ø***
- + **High-quality and durable stainless steel cone grinder**
- + **Flavour-preserving grinding speed of 500 rpm** for an even grinding pattern and reduced heat development
- + **34 precise grinder settings** for every preparation method and coffee speciality from extra fine powder, such as Turkish coffee, to coarser French press powder
- + **Powerful 180 watt DC motor**

- + Bean container with 320 g capacity
- + Individual dosing via single and double cup quantities (3-25 and 10-50 seconds)
- + **Extra fine coffee powder possible (<0.355 mm)** - suitable for commercial portafilter machines
- + Flavour-sealed collection container for 130 g ground coffee with innovative **anti-static technology** without the coffee powder sticking to the surfaces
- + Practical memory function for favourite quantities
- + Grinder, bean container and drip tray are easy to remove for easy cleaning

*Porterfilter not included
