**Table top thickness:** 24 mm  
**Material table top:** Laminate  
**Stand material:** Steel  
**Load capacity:** 280 kg  
**Stand:** Electrically adjustable

## Product information

Stable and powerful workbench with four pillars, intended for work that requires a really stable table. The workbench has a large stroke of 610-1270 mm, which makes it both adaptable and flexible to adjust as needed – a significant factor when choosing a table. The height is adjustable with a table control and the table has a lifting speed of 38 mm / sec when it is unloaded. Maximum load is 280 kg distributed weight. The table is made of lacquered steel.

The laminate top is a table top with a hard and scratch-resistant surface that has good resistance to liquids and chemicals. Easy to wipe off and keep clean. Edge strip in grey ABS.  
The workbench is delivered unassembled.

*Expected delivery time: 15 weeks.*
