Clear depth	2200 mm
Roof style	Pent roof
Roof type	Troughed sheet
Colour	Silver
Base area	4,60 m ²
Mounting type	Floor mounting
Base material	Steel
Snow load	0,75 kN/m ²

The „Siegen“ series fulfils many purposes particularly economically. The base system is focused on the essentials: a galvanised tubular steel construction on which the pent roof lies with weatherproof trapezoidal sheet metal roofing. Trapezoidal metal sheeting or polyester are available for the sides. The rear can

consist of trapezoidal sheet metal. „Siegen“ can be combined with extension units in a variety of ways so that roofs of different shapes and sizes are created. For weatherproof storage of material or for parking motor vehicles, bicycles or construction machinery. Kit for self-installation and for bolting down.

- + Entry level model
- + Hot-dip galvanised pent roof steel construction
- + Variable roof lengths and widths
- + Side panels made of trapezoidal sheet metal or polyester
- + Basic unit can be extended as required
