## Care instructions

### *Fabric*

To maintain the color and appearance of the fabric, it should be vacuum cleaned regularly with a soft nozzle.

- Wet the stain sparingly with a white pure cotton cloth, warm water and possibly a little pH-neutral cleaner.
- Dab the area with a dry cloth or colorless paper towel to absorb the moisture and stain.
- Repeat this process until the stain is gone.
- On the final repetition, use only clean water with no detergent added.
- Finish by dabbing up moisture with a dry cloth or paper towel.

### *Stain Removal for wool:*

Dab or wipe gently with a damp cloth.
